INDEX TO VOLUME XXII

The asterisk * preceding the page number indicates an original article in this Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in the Journal. The letter B preceding the page number indicates a book review. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

Abraham, K., and P. Lampert, histochemical observations on intraneuronal lipid deposits in metachromatic leukodystrophy, T329
Adams, R. D., D350, D351, D354, D355, D363
Adenohypophysis, lesions of ovaries and, of case of ataxia-telangiectasia, *549
Aguilar, J. A., cerebral vascular insufficiency after basilar artery ligation, *617
Alkyl tin intoxication, cerebral edema induced by, *403
Aleu, F. P., R. Katzman, and R. D. Terry, fine structure and electrolyte analyses of cerebral edema induced by alkyl tin intoxication, *403
—, —, —, fine structure and electrolyte analyses of cerebral edema produced by triethyl tin, T344
—, D347
Allergic encephalomyelitis in the rat, experimental, *367
Alvord, E. C., C. M. Shaw, R. N. Hayden, and L. E. White, unusual incidence of arrhinencephaly, T358
—, D324, D354, D359, D360, D361, D363
Alzheimer's disease, fine structure of neurofibrillary tangles in, *629
American association of neuropathologists, annual meeting, Atlantic City, N. J., *318
Anderson, P. J. see Shimada, N., T332
—, D333
—, T333
Anencephaly in early human embryos, *533
Appel, S. H., and M. B. Bornstein, factors responsible for in vitro demyelinations present in sera from animals with experimental "allergic" encephalomyelitis, T324
—, D325
Aronson, S. M., and H. Okazaki, unexplained gliosis of the Sylvian acqueduct, with hydrocephalus, in chronic alcoholic patients, T362, D363
Asao, H., see Roizin, L., T358
Ataxia-telangiectasia, a case with lesions of ovaries and adenohypophysis, *549
Aurebeck, G., see Nelson, E., *414, T331
Austin, J., D349, D350, D354

Bailey, O. T., D361
Ballard, L. A., see Margolis, G., T321
Barbeau, A., see Schulman, S., *105
Barlow, C. F., H. Firemark, and L. J. Roth, diphenylhydantoin-2-C^{14} in cat brain, T348
—, D340, D345, D349
Barron, K. D., and T. O. Tunebay, phosphatases of cervical cord and root ganglia after brachial plexectomy, T328
—, see Koenig, H., T336
Basilar artery ligation, cerebral vascular insufficiency, after, *617
Berry, J., see Nelson, E., *414
Besen, M., see Gonatas, N. K., *263
Book reviews, B364, B702
Bornhofen, J., see Nelson, E., *414, T331
Bornstein, M. B., phagocytic activities of cultured neuroglia, T353
—, see Appel, S. H., T324, D354
Bowden, D. H., P. G. Danis, and S. C. Sommers, Ataxia-telangiectasia. a case with lesions of ovaries and adenohypophysis, *549
Boyd, J. D., see Clausen, R. A., T344
Brain, experimental edema, in the rat and cat, *237
Brain tumors, observations on primary, with fluorescent microscopy, *170
Brihaye, J., O. Périer, and J. Sténuit, multiple sclerosis associated with a cerebral glioma, *128
Brown, I. W., see Margolis, G., T321
Brown, J. R., see D'Agostino, A. N., *450
Brueckner, G., see Chason, J. L., *471

Cabasso, V. J., see Jungherr, E. L., *512, T353
Calcium and iron dysmetabolism in the brain, with special predilection for globus pallidus and cerebellum, *148
Cammermeyer, J., differential response of two neuron types to facial nerve transection in young and old rabbits, *594
—, D318, D323, D327, D335, D338, D340, D341, D351
Carnecki, G., see Clasen, R. A., T344
Cell growth, effects on, by a serum fraction from patients with central nervous system neoplasms, *677
Central pontine myelinolysis, *302
Cerebellar cortex, granular layer, experimental study of postmortem alterations in, *581

Cerebellum, iron and calcium dysmetabolism with special predilection, for, *148
Cerebral demyelination associated with polycythemia vera, *138
— vascular insufficiency after basilar artery ligation, *617
Chason, J. L., J. E. Gonzales, and J. W. Landers, respiratory enzyme activity and distribution in the postmortem central nervous system, *248
Chason, J. L., J. W. Landers, J. E. Gonzales, and G. Brueckner, respiratory enzyme activity in human gliomas, *471
Christoff, N., D325
Clasen, R. A., P. M. Cooke, S. Pandolfi, J. D. Boyd, and G. Carnecki, vital staining mechanisms in the damaged and edematous central nervous system, T344
—, D323, D347
Comparative pathology of attenuated poliovirus and simian viruses 12 and 40 in monkeys and mice, *512
Cooke, P. M., see Clasen, R. A., T344
Courville, C. B., morphology of small encephalic vascular anomalies, T361, D361, D362
Courville, C. B., morphology of small vascular malformations of the brain, with particular reference to the mechanism of their drainage, *274
Creutzfeldt-Jakob's disease. Clinicopathologic report of 15 cases and review of the literature, *381
Cowen, David, and E. V. Olmstead, infantile neuroaxonal dystrophy, *175, T318
—, see Meyers, J. P., T357
Cumings, J. N., see Kalsbeck, J. E., *237

D'Agostino, A. N., G. L. Pease, and J. W. Kernohan, cerebral demyelination associated with polycythemia vera, *138
—, J. W. Kernohan, and J. R. Brown, Dandy-Walker syndrome, *450
Dandy-Walker syndrome, *450
Danis, P. G., see Bowden, D. H., *549
Dekaban, A. S., anencephaly in early human embryos, *533, D359, D360
Demyelinating diseases, some remarks on the pathogenesis of, *528
— lesions and focal vascular lesions in the cerebral white matter of normal and irradiated monkeys (macaca mulatta), *120
Demyelination, cerebral, associated with polycythemia vera, *138
Differential response of two neuron types to facial nerve transection in young and old rabbits, *594
Dowling, J. E., and R. L. Sidman, inherited retinal dystrophy in the rat, T349
Dystrophy, neuroaxonal, infantile, *175

Ebner, F. F., see Pentschew, A., *488
Edema, cerebral, fine structure and electrolytic analyses of, induced by alkyl tin intoxication, *403
Edema, experimental, in the rat and cat brain, *237
—, cerebral, neuropathological changes late in: the relationship to trauma, hypertensive disease and Binswanger's encephalopathy, *403
Editorial, *1
Effects on cell growth by a serum fraction from patients with central nervous system neoplasms, *677
— of X-irradiation on the spinal cords of neonatal rats. I. neurological observations, *285
—, —, —, II. histological observations, *294
Electron microscopic study, synaptic lamellas in the human retina, *255
— microscopic study of three human psammomatous meningiomas, *263
Embyros, anencephaly in early human, *533
Encephalomyelitis, experimental allergic, in the rat, *367
Encephalopathy, experimental manganese, in monkeys, *488
Enzyme activity, respiratory, of human gliomas, *471
Enzyme activity, respiratory, distribution in the post mortem central nervous system, *248
Estable de, R. F., and A. S. Rabson, histopathological studies of tumors produced by intraspinal inoculation of oncogenic viruses, T352
Ewy, H. G., see Margolis, G., T321
Experimental allergic encephalomyelitis in the rat, *367
— edema in the rat and cat brain, *237
— manganese encephalopathy in monkeys. a preliminary report, *488
Experimental study of post mortem alterations in the granular layer of the cerebellar cortex, *581

Facial nerve transection, differential response of two neuron types in young and old rabbits, to, *594
Fankhauser, R., neuropathological changes encountered in wild animals, T322
Feigen, I., and N. Popoff, neuropathological changes late in cerebral edema: the relationship to trauma, hypertensive disease and Binswanger's encephalopathy, *403
—, see Popoff, N., T354
—, D356
Fine, Ben, S., synaptic lamellas in the human retina: an electron microscopic study, *255
Fine structure of neurofibrillary tangles in Alzheimer's disease, *629
Fine structure and electrolyte analyses of cerebral edema induced by alkyl tin intoxication, *500
Fisher, C. M., I. Gore, and N. Okabe,

arteriosclerosis of the carotid and vertebral arteries, T319
—, D320
Fluorescent microscopy, observations with, on primary brain tumors, *170
Friede, R. L., cerebellar edema, a metabolic and cell statistical analysis, T344, D347
—, D337, D351

Gilles, F. H., selective symmetrical neuronal necrosis of certain brain stem tegmental nuclei in temporary cardiac standstill, T318
Gilmore, S. A., the effects of x-irradiation on the spinal cords of neonatal rats, I. neurological observations, *285
—, II. histological observations, *294
Gliomas, experimental, neovascularization in, *435
Gliomas, human, respiratory enzyme activity of, *471
Globus pallidus, iron and calcium dysmetabolism in the brain, with special predilection, for, *148
Gomez, C. J., see Korey, S. R., *2
—, see Gonatas, N. K., *557
Gonatas, N. K., H. M. Zimmerman, and S. Levine, the fine structure of experimental inflammation with edema, T342
—, D343
Gonatas, N. K., and M. Besen, an electron microscopic study of three human psammomatous meningiomas, *263
—, R. D. Terry, R. Winkler, S. R. Korey, C. J. Gomez, and A. Stein, a case of juvenile lipidosis: the significance of electron microscopic and biochemical observations of a cerebral biopsy, *557
—, see Korey, S. R., *2, *56
—, —, see Samuels, S., *81
Gonzales, J. E., see Chason, J. L., *248, *471
Goodgold, A., see Popoff, N., T354
Gore, I., see Fisher, C. M., T319
Granular layer, of cerebellar cortex, experimental study of post mortem alterations in, *581

Hain, R. F., D327
Hand, R. A., see Peters, H. J., T321
Hassler, O., perivascular nerve-plexus of human cerebral arteries in vascular disease, *446
Hayden, R. N., see Alvord, E. C., T358
Hemodynamics, regional, in the brain cortex, method for the measurement of, *479
Hess, H. H., see Lewin, E., T329
Hirano, A., see Ikuta, F., *581
Hypersensitivity, radioautographic study of cellular mechanism in delayed, *367

Ikuta, F., A. Hirano, and H. M. Zimmerman, experimental study of post mortem alterations in the granular layer of the cerebellar cortex, *581
Infantile neuroaxonal dystrophy, *175, T318
Intoxication, alkyl tin, cerebral edema induced by, *403
Iron and calcium dysmetabolism in the brain with special predilection for globus pallidus and cerebellum, *148
Irradiated monkeys (macaca mulatta), demyelinating lesions and focal vascular lesions in the cerebral white matter of, *120

Jabbour, J. T., see Nelson, E., *414
Jungherr, E. L., V. J. Cabasso, and M. Stebbins, comparative pathology of attenuated poliovirus and simian viruses 12 and 40 in monkeys and mice, *512, T353
Juvenile lipidosis: the significance of electron microscopic and biochemical observations of a cerebral biopsy, *557

Kaelber, W. W., tremor at rest from tegmental lesions in the cat, *695
Kalsbeck, J. E., and J. N. Cumings, experimental edema in the rat and cat brain, *237
Kaufman, M., see Roizin, L., T358
Katzman, R., see Aleu, F. P., *500, T344
Kernohan, J. W., see D'Agostino, A. N, *138, *450
Kirschbaum, W. R., D356
Klavins, J. V., central pontine myelinolysis, *302
Klatzo, I., D338, D343, D346
Knisely, M. H., D320
Koenig, H., and Barron, K. D., reactive gliosis, a histochemical study, T336
—, D329, D339
Konigsmark, B. W., and R. L. Sidman, origin of brain macrophages in the mouse, *643
—, origin of gitter cells in the mouse brain, T327
—, D328
Korey, S. R., C. J. Gomez, A. Stein, J. Gonatas, and K. Suzuki, studies in Tay-Sachs disease, I.A. methods, 1, biochemical, *2
—, J. Gonatas, and A. Stein, studies in Tay-Sachs disease, III, biochemistry, A, analytic and metabolic aspects, *56
—, and R. D. Terry, studies in Tay-Sachs disease, IB, clinical and pathological descriptions, *10
—, and A. Stein, studies in Tay-Sachs disease, IIIB, catabolism of gangliosides and related compounds
—, see Samuels, S., *81
—, see Terry, R. D., *98
Kosunen, T. U., B. H. Waksman, and I. K. Samuelson, radioautographic study of cellular mechanisms in delayed hypersensitivity. II. experimental allergic encephalomyelitis in the rat, *367
Kosunen, T. U., and B. H. Waksman, radioautographic studies of experimental

allergic encephalomyelitis (EAE) in rats, T324
Kosunen, T. U., B. H. Waksman, and I. K. Samuelson, radioautographic study of cellular mechanisms in delayed hypersensitivity, II, experimental allergic encephalomyelitis in the rat, *367
—, T324, D326
Kovatch, R. M., see Pentschew, A., *488
Krabbe's disease, ultrastructural and chemical studies on, *414

Lamellas, synaptic, in the human retina: an electron microscopic study, *255
Lampert, P., see Abraham, K., T329
Landers, J. W., see Chason, J. L., *248, *471
Lapham, L. W., the occurrence of polyploidy in normal astrocytes of the Purkinje cell layer of the cerebellum, T335, D336, D356
Levine, S., H. M. Zimmerman, E. J. Wenk, and N. K. Gonatas, experimental leukoencephalopathies due to spread of foreign substances in white matter, T342
—, D324
—, see Gonatas, N. K., T342, D343
—, D347
Lewin, E., and H. H. Hess, the intralaminar distribution of proteins and cerebroside in human frontal cortex, T329
Lindenberg, R., a third factor essential for the development of cerebral lesions in acute hypoxemias and a reappraisal of the significance of pathoclisis, T318
—, D320, D321, D356, D360, D361, D362
Lipidosis, juvenile, a case of, *557
Liss, L., and L. Mervis, the ependymal lining of the cavum septi pellucidi, a critical evaluation of an old fallacy, T360

Mackey, E. A., and D. Spiro, electromicroscopic study of central chromatolysis in rat spinal root ganglion, T357
—, D358
Macrophages, brain, origin of, in the mouse, *643
Malamud, N., see Siedler, H., *381
Malformations, vascular, small, of the brain, morphology, with particular reference to the mechanism of their drainage, *274
Manganese encephalopathy, experimental, in monkeys, *488
Marcus, E. M., see Sung, J. H., T347
Margolis, G., I. W. Brown, T. G. Yerasimides, W. W. Smith, T. W. Robbins, K. Matsui, H. G. Ewy, and L. A. Ballard, T321
—, D322
Matsui, K., see Margolis, G., T321
McGrath, J. I., and S. A. Steinberg, cerebrovascular disease of the dog, T323
—, D323
McKhann, G. M., see Moser, H. W., T330
Membrane of the membranous cytoplasmic body, studies in Tay-Sachs disease, *98
Meningiomas, psammomatous, an electron microscopic study of three human, *263
Mervis, L., see Liss, L., T360
Method for the measurement of regional hemodynamics in the brain cortex, *479
Mettler, F. A., and G. M. Stern, observations on the toxic effects of yellow star thistle, *164
Miller, J. Q., D359
Moosey, J., D319, D351, D363
Morphology of small vascular malformations of the brain with particular reference to the mechanism of their drainage, *274
Moser, H. W., and G. M. McKhann, sulfatide metabolism in metachromatic leukodystrophy, T330
Multiple sclerosis associated with a cerebral glioma, *128
Myelinolysis, central pontine, *302
Myers, J. P., J. H. Sung, D. Cowen, and A. Wolf, pathological findings in the central and peripheral nervous systems in Chediak-Higashi's disease: the finding of cytoplasmic neuronal inclusions, T357

Nelson, E., G. Aurebeck, and K. Osterberg, electron microscopic and histochemical observation on Krabbes disease, T331
Nelson, E., G. Aurebeck, K. Osterberg, J. Berry, J. T. Jabbour, and J. Bornhofen, ultrastructural and chemical studies on Krabbe's disease, *414
Neonatal rats, effects of x-irradiation on the spinal cords of, *285, *294
Neoplasms, central nervous system, effects on cell growth by a serum fraction from patients with, *677
Neovascularization in experimental gliomas, *435
Nerve-plexus, perivascular, of human cerebral arteries in vascular disease, *446
Neumann, M. A., iron and calcium dysmetabolism with special predilection for globus pallidus and cerebellum, *148
Neuroaxonal dystrophy, infantile, *175
Neurofibrillary tangles, fine structure of in Alzheimer's disease, *629
Neuron types, two, differential response of to facial nerve transection, *594
Neuropathological changes, late, in cerebral edema, relationship to trauma, hypertensive disease and Binswanger's encephalopathy, *403

Observations on primary brain tumors with fluorescent microscopy, *170
Observations on the toxic effects of yellow star thistle, *164

Okazaki, H., see Aronson, S. M., T362
Olmstead, E. V., see Cowen, David, *175, T318
Olszewski, J., autoradiography of the area postrema and hypothalamus after intravenous injection of iodinated radioactive proteins, T340, D340
Origin of brain macrophages in the mouse, *643
Osterberg, K., see Nelson, E., *414, T331
Ovaries, lesions of and of adenohypophysis in case of ataxia-teleangiectasia, *549

Pandolfi, S., see Clasen, R. A., T344
Pease, G. L., see D'Agostino, A. N., *138
Pentschew, A., F. F. Ebner, and R. M. Kovatch, experimental manganese encephalopathy in monkeys, a preliminary report, *488
—, D335, D355
Périer, O., see Brihaye, J., *128
Perivascular nerve-plexus of human cerebral arteries in vascular disease, *446
Pette, E., and H. Pette, some remarks on the pathogenesis of demyelinating diseases, *528
Pette, H., see Pette, E., *528
Peters, H. J., R. A. Hand, and A. B. Chandler, thrombotic atherosclerosis of human cerebral arteries, T321
—, D321
Pitcock, J. A., demyelinating lesions and focal vascular lesions in the cerebral white matter of normal and irradiated monkeys (macaca mulatta), *120
Polycythemia vera, with cerebral demyelination, *138
Poliovirus and simian viruses 12 and 40, attenuated, comparative pathology of, in monkeys and mice, *512
Pontine myelinolysis, central, *302
Popoff, N., A. Goodgold, and I. Feigin, chronic cerebral degeneration in acquired liver disease, T354
—, see Feigin, I., *403
—, D356
Post mortem alterations in the granular layer of the cerebellar cortex, experimental study of, *581
— central nervous system, respiratory enzyme activity and distribution in, *248
Psammomatous meningiomas, an electron microscopic study of three human, *263
Purpura, D. P., see Sung, J. H., T347

Rabson, A. S., see Estable de, R. F., T352
Radioautographic study of cellular mechanisms in delayed hypersensitivity, II, experimental allergic encephalomyelitis in the rat, *367
Raimondi, D343, D345
Ravens, J. R., D328, D335, D351
Respiratory enzyme activity of human gliomas, a slide histochemical study, *471
Respiratory enzyme activity and distribution in the post mortem central nervous system, *248
Retina, human, synaptic lamellas in, *255
Robbins, T. W., see Margolis, G., T321
Roizin, L., M. Kaufman and H. Asao, effects of prochlorperazine upon the rat C.N.S. 3., electron microscopic observations, T358
—, D325, D361
Romanul, F. C. A., D319
—, a histochemical study of muscle, T332
—, D327, D341
Rubinstein, L. J., D336

Samuels, S., S. R. Korey and J. Gonatas, studies in Tay-Sachs disease, IV, 1, biochemistry, *81
—, S. R. Korey, and J. Gonatas, studies in Tay-Sachs disease, IV. Membranous cytoplasmic bodies, 1. biochemistry, *81
